FINANCIAL STABILITY

EXPERTISE

CACEIS is a **leader in asset servicing** and posts solid financial results. Steady growth in terms of assets, clients and geographical coverage makes CACEIS a reliable partner for our clients. The acquisition of Royal Bank of Canada's European asset servicing activities, realised in July 2023, demonstrates our ongoing industry commitment.

CACEIS' capital is prudentially allocated to ensure client assets are fully protected, and investment in technology guarantees clients high service levels. CACEIS also offers clients a rigorous compliance system that fosters the stable and sustainable development of their business activities.

CO-CREATION

FLEXIBILITY

CACEIS has implemented a **strategy to digitalise** its value chain to better serve clients. We leverage digital technology to improve the user experience, increase the efficiency and security of operations, and optimise product sales channels.

By developing **innovative and agile solutions** to raise service efficiency, CACEIS remains focused on digitalising the client journey, from account opening and contract signature through to measuring satisfaction by implementing our “Leading by Client Satisfaction” process.

INN@TECH

CACEIS has developed a new operations management and monitoring platform that pulls together all the data points relating to day-to-day business activity. It is intuitive, customisable, and optimised for mobile and desktop devices. This integrated business intelligence tool generates a wide range of reports that can be tailored in term of style, content, and dissemination frequency.

TEEPI is a digital platform with three modules designed to address fund distribution challenges:

- **TEEPI Market Place** to efficiently manage fund distribution and invest in a wide range of funds.
- **TEEPI Data Hub** to send out regulatory files.
- **TEEPI ETF** to access the primary ETF market.

Connect Store

SOLUTIONS FOR YOUR DATA

CACEIS' OPEN FINANCE SOLUTION

Accessible via the OLIS client portal, the Connect Store provides access to the best fintech solutions on the market, in addition to the services already offered by CACEIS.

A wide range of Plug & Play services provided by partner companies selected for their recognised expertise in addressing clients' business challenges is available. Four solutions are already available: **FundGlobam** for fund distribution, **Clarity AI** for ESG analysis and reporting, **Osmoze** and **Sismo** for data analysis.

We aim to add around five new fintech partners each year.

DIGITAL ASSETS

Authorised as Digital Assets Service Provider by France's financial regulator, CACEIS set up a Business Line focusing exclusively on digital assets to support clients looking to invest in digital assets in a highly secure environment.

Digital asset custody offer is fully integrated with CACEIS' IT systems, and built on the robust suite of digital platforms developed by Taurus for storing private keys and connects to the major Blockchains including Bitcoin, Ethereum, and Polygon. It also relies on Scorechain, Europe's premier compliance solution provider for the Blockchain ecosystem.

CACEIS is keen to be the benchmark asset servicing group in Europe for digital asset custody and tokenised funds units, fully playing its role as a trusted third party unit.

STRONG CORPORATE RESPONSIBILITY

COMMITMENT AND RESPONSIBILITY

CACEIS' ESG & Climate reporting offer: an innovative, easy-to-use digital solution

CACEIS offers a comprehensive range of services for asset managers and institutional investors to assess their exposure to ESG risks.

The service is divided into two parts: **risk monitoring**, to monitor changes in and exposure of portfolios to ESG risks; and **regulatory reporting**, to produce pre-configured reports (EET, SFDR, TCFD) to meet the requirements of the regulator and the market.

CACEIS believes that strong corporate social responsibility is a source of long-term growth, which includes a deep commitment to being a **reliable partner** for our clients by adding sustainable value.

CACEIS' ESG strategy reflects our commitment to **supporting the climate transition** by assisting clients in the implementation of their ESG regulatory obligations and assessing their portfolios for a more carbon-free world.

Concerned about our own social and environmental impacts, and aware of our duty to set an example, CACEIS **has been measuring its direct environmental footprint for many years** and implementing action plans to reduce it.

CACEIS' **code of conduct** reflects the high standards of responsibility and quality that govern our professional activities, and a determination to always act in the best interests of clients and stakeholders. It encourages our suppliers to adopt this virtuous approach.

As a **responsible employer**, CACEIS has implemented a company policy aimed at helping employees to improve their skills. Voluntary programmes covering compliance, diversity, fairness and quality of life at work bolster the ethical awareness, commitment and motivation of the staff.

CACEIS has created a **Sustainability Centre**, a think tank that brings together CACEIS' employees who represent the business lines and are invested in sustainable development. This group meets regularly to reflect on how to improve its actions and services to clients.

CACEIS' THREE CSR PILLARS

- 1 **Supporting clients with confidence and security**
- 2 **Taking action to promote the energy and environmental transition**
- 3 **Being a responsible and committed employer**
